

# Policy

## **Road Safety Policy**

Bengt Hildemar Transport AB shall offer and work for haulage with consistently high road safety. The Company's actions and behaviour in traffic shall contribute to reducing the number of road accidents – in line with the Swedish Road Administration's zero-vision target.

By observing the following directives, we contribute in our way to achieving the zero-vision target:

- Vehicles and trucks shall be in roadworthy condition
- Speed limits shall be respected and the Company's recommendation regarding maximum authorised speed shall be observed
- The greatest possible consideration shall be given to other road-users, and the Company's drivers shall set a good example on the road
- Safety belts shall always be used when a vehicle is driven on the road
- Tyres shall be visually inspected at regular intervals regarding pressure and general condition
- Load-securing equipment shall be in perfect condition
- Drivers shall always ensure that the load is secure before and during each journey
- The Company shall always observe regulations regarding load weight, length and width
- The Company and drivers shall observe legal regulations concerning breaks and driving/resting times
- Systems and procedures for reporting faults on vehicles shall always be available
- All personnel driving a vehicle shall be alcohol- and drug-free.

Stockholm, 1 January 2008
